

## Quickbooks Management Services

How can a well-run Quickbooks system support my home care agency's growth?

What Quickbooks Can Do	How Quickbooks Can Help
Offer a realistic picture of your agency's profitability and overall financial health	When all revenues and expenses are posted to the appropriate accounts, you'll get more accurate and complete financial statements
Helps your agency manage the accounts payable process	Avoid late invoice payments and late fees Helps your agency manage cash flow
Provides a detailed chart of accounts and more accurate financial statements	Consolidates information for management review
Supports your agency's conversion from cash to accrual method	Gives a clearer and more accurate picture of your actual monthly revenues and profitability

### Depend on Corcoran Consulting Group to

- Install or clean up your agency's QuickBooks accounting and financial system
- Set up an accounts payable module to create and manage vendors, enter invoices and issue checks
- Set up (or clean up) the chart of accounts

## Corcoran Consulting Group to the Rescue: *Quickbooks Success Stories*

### **For a start-up home care agency:**

Established a chart of accounts, accounts payable process, and financial statements in QuickBooks. This helped our client track expenses, view profitability and to better manage daily business transactions.

### **For a small home care agency:**

Converted from a cash to accrual basis of accounting in QuickBooks which provided a better view of revenues, profitability and key performance indicators.

### **For a family-owned home care agency:**

Streamlined the Quickbooks Chart of Accounts with accurate account descriptions. The agency now accurately posts transactions to the proper accounts.

Don't ignore the elephant in your room. We can help you train him!
